EDUCATION

New York University, College of Arts and Sciences | New York, NY May 2025
Bachelor of Arts, Computer Science and Mathematics, GPA: 3.5
Relevant Courses: Data Structures & Algorithms, Operating Systems, Data Management & Analysis, Artificial Intelligence, Predictive Analytics, Software Engineering, Natural Language Processing
Stern School of Business: Financial Accounting, Decision Models & Analytics

TECHNICAL SKILLS

Data Analysis & Visualization: Python (pandas, NumPy), SQL, MS Excel, Tableau, R, Figma
Programming & Machine Learning: Python (scikit-learn, TensorFlow, matplotlib, seaborn), Java, C, SPSS
Database Management: SQL, SQLite, MongoDB
Development & Design: HTML, CSS, JavaScript, Flask
Certificates: Google Advanced Data Analytics (TBC 2/2025), Microsoft Business Analytics (TBC 2/2025)

PROJECTS

Job Tracking Web Application | Python, Flask, MongoDB, HTML, CSS October 2024

- Developed a full-stack website for tracking job applications, utilizing Flask as the back-end framework and MongoDB to store the database documents
- Implemented user authentication and session management to ensure secure access to user-specific data
- Designed dynamic templates to display and modify the current user's application collection in the database

Obesity Rates Analytic Paper | Python, SQL, R August – Sept 2024

- Performed Exploratory Data Analysis (EDA) on datasets related to fast food restaurant density and obesity rates across the United States
- Created predictive models and data visualizations to explore a potential correlation between these variables
- Utilized clustering algorithms, like PCA and K-Means, to identify underlying patterns

Memory Recall Game | Java April 2023

- Designed a matching card game that utilizes data handling and manipulation through object-oriented programming
- Implemented features to display, hide, and check for image matches, analyzing user interactions

EXPERIENCE

Teaching Assistant | *New York University*, New York, NY Jan. 2023 – May 2025

- Assistant for "Introduction to Computer Programming" and "Data Structures" courses at NYU
- Apply Python and Java to analyze and debug student assignments, improving code accuracy and efficiency
- Provide detailed data-driven feedback to help students build their programming skills

Marketing Analytics Intern | *Saffron Communities*, San Francisco, CA June 2022 – Sept. 2022

- Leveraged Excel for analyzing and organizing company event data
- Developed and managed social media strategies, enhancing event promotion and engagement
- Provided data insights to advise clients on optimizing event planning and execution

NCAA DIII Athlete | *New York University Swim & Dive*, New York, NY Sept. 2020 – May 2022

- Commit 24+ hours per week to training, travel, and competition while balancing academic responsibilities
- Developed strong concentration, dedication, work ethic, and time management skills
- Intercollegiate Athletics Advisory Committee (2021):* recognized for outstanding academic achievement

ACTIVITIES

Clubs and Societies: Intercollegiate Athletics Advisory Committee, Girls Who Code, Penn Club

Volunteer | *New York Cares*

July 2023 – Present

- Assisted adults with physical therapy exercises, ensuring effective and engaging sessions
- Provided math tutoring to children in grades 1-5, fostering a supportive educational environment

Head Volunteer | *USA Swimming Foundation: Make a Splash*

- Instructed underprivileged children in swimming, focusing on safety and proper technique
- Coordinated and promoted fundraising events, increasing community engagement and support
